

# RINGLER & ASSOCIATES

SANTA MONICA, CA

*Jerome Ringler has received jury verdicts in excess of \$250 million for his clients.*

For 30 years, Jerome Ringler has achieved a record of success in the courtroom that is virtually unrivaled in Southern California—and elsewhere. Consider this: Of the 76 cases Ringler has tried to verdict, 21 have resulted in jury awards in the seven- and eight-figure range. Recent results include a class action verdict for \$160 million, a misappropriation of trade secrets verdict for \$16 million and a personal injury verdict for \$12 million.

Illustrative of Ringler's class action capabilities, just recently—while he was with Ringler Kearney— he achieved class certification in a business fraud class action where the damages exceed \$250 million. In the area of class action litigation alone, he has achieved verdicts and settlements that exceed \$225 million. He has also served as lead counsel in four major railroad disasters involving commuter lines, two of which were the largest commuter rail disasters in our nation's history at the time they occurred. The combined settlements in these two cases alone approached \$250 million.

Ringler has been listed in *The Best Lawyers in America*® for more than a decade and has been included on the Top 100 *Southern California Super Lawyers*® list from 2004 to 2007, 2009, 2010 and 2012. Ringler was named "Trial Lawyer of the Year" on two occasions, first by the Los Angeles Trial Lawyers Association and later by *Verdictum Juris*.

And so it makes sense that the firm of Ringler & Associates is highly selective in its choice of clientele, representing only plaintiffs in significant high-stakes litigation.
